Re: Veterinarian Review of the Petrnr

Dear Mr. Krachman,

Thank you for the opportunity to review the Petrnr from a Veterinarians' health and safety perspective. Our office has 38 years of Veterinary practice experience. Overall we think the Petrnr is a safe, beneficial and fun system that can be enjoyed by dogs and their owners, provided the owners follow the Safety instructions included with the Petrnr, which also appear on the Safety instructions at [www.petrnr.net](http://www.petrnr.net).

We wish you success in sharing it with the canine owner community.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Rosen", with a stylized flourish at the end.

Dr. Scott Rosen, DVM
